Lori Urwin IDC, ARIDO

Associate, Senior Project Interior Designer

HOK

416-822-8085

lori.urwin@hok.com

Where do you work and what is your role there?

I work at HOK, a global design and architecture firm. Our services include architecture, interior design, workplace strategy, change management, graphic design, urban planning, facility strategy, space management, sustainability and WELL consulting. As a Senior Project Interior Designer, I have expertise leading workplace design, strategy and project management.

What areas of commercial real estate do you specialize in?

With over 20 years of experience, I specialize in corporate real estate.

What do you find is most challenging or satisfying in your role?

I am most satisfied in my role when I am building relationships — whether its with the project team that I am working with day-to-day, clients or sales representatives. I thrive in collaborative environments where I am able to build on positive energy, which aids me when difficult decisions or situations arise.

How long have you been a CREW member and what do you get most out of being a member?

As a new member, joining Toronto CREW only one week ago, I hope to meet more people that I can work with and help through my experience. Understanding that CREW is an active network, I look forward to opportunities to learn more and volunteer my time to furthering this great initiative.

I would like CREW members to call me whenever they need . . .

Any type of service! Drawing upon my resources at HOK, I can work to leverage the art and science of design to help create high-performance workplaces that enable people to be as productive as possible from all building sectors.
