

## **My Toronto CREW PROfile – Nancy Rheume**

### **Where do you work and what is your role there?**

I am a Project Manager with experience in the Design & Construction industries, currently working for the Project & Development Services team at JLL Canada. I am responsible for managing various Cadillac Fairview projects at two of their downtown properties. I provide guidance and assistance to retail and office Tenants during both the design and construction phases of their leasehold improvements. I also assist with Landlord Return to Base projects.

### **What areas of commercial real estate do you specialize in?**

I primarily work in the office and retail areas of the corporate real estate industry.

### **What do you find is most challenging or satisfying in your role?**

I enjoy helping Tenants with their move-ins, and Landlord Return to Base projects restoring the leased spaces back to original base building conditions. Assisting each Tenant with their own special requirements and technical needs during a time of transition is very satisfying to me. Working in a bldg that is occupied is always an interesting challenge!

### **How long have you been a CREW member and what do you get most out of being a member?**

am a new Toronto CREW member. I had the opportunity to participate in last year's Toronto CREW Golf Tournament, and met many enthusiastic and interesting CREW members. I look forward to getting to know other women in the corporate real estate industry in Toronto!

### **I would like CREW members to call me whenever they need . . .**

.Project Management Services! My JLL PDS team can support your Project Management needs on Interior Build-outs of all types. As experts in design oversight, we would love to be involved in your next renovation or relocation project, delivering inspirational workplaces.
